202	Microscope	Electrical characteristics 1) A 120V, 60Hz mono-phase electrical source with line connection plug NEMA 5-15 type. 2) Protections against over-voltage and over-current line conditions. 3) Compliance with applicable Haitian standards and regulations. Operational characteristics 4) Binocular standard optical system biological microscope 5) (Observation methods: brightfield, darkfield, and phase contrast 6) Adjustable inter-pupil distance. 7) Ocular tubes with adjustable focus. 8) Wide-field eyepieces at least 10x and 15x. 9) At least the following plan achromatic objectives provided: 4x, 10x, 40x, up to 100x (oil immersion). 10) Mechanical revolving nose piece with not less than 4 slots for interchangeable objectives positioning. 11) Integrated illumination system with a 30 W halogen lamp with adjustable light intensity or a Light-Emitting Diode (LED). 12) Coaxial focusing system with macro and micro movements. 13) Rack-less mechanical rectangular stage with horizontal movements in both two. x and y, perpendicular directions 14) Stage provided with easy removable pincers. 15) Equipment provided with interface to attach a digital camera (optional). 16) At least one interface for printer and PC connection for data printing and transmission (optional). Additional consumables and accessories to be included in the bid price: 17) Dust cover and hard box. 18) At least n° 1 spare halogen bulb if LED is not provided 19) Complete with the necessary start up kit of consumables and reagents for initial testing, calibration and training activities	NIKON	NIKON	EACH	165,000.00	92,000.00	Kamala Agencies	L1
